

A Glimpse Into Our Community

An Inclusive Summary

In the **Community Health Assessment (CHA)** is was revealing as to see not only the need current needs of our community but potentially anticipate what those needs will be in the future. This is a brief synopsis to identify as to what makes our community. With Osceola County growing hastily in recent years, it is vital to assess various factors, including demographics, that affect the make-up of our community.

This glimpse is to provide a baseline to ensure the Osceola County Health Department is in keeping with the state's vision of being the healthiest state in the nation by 2030.

It is important to know not only who comprises Osceola County's population but analyze the ever-changing issues and needs the county and its residents face.

This presentation is the result of those dedicated individuals with the Florida Department of Heath in Osceola County.
